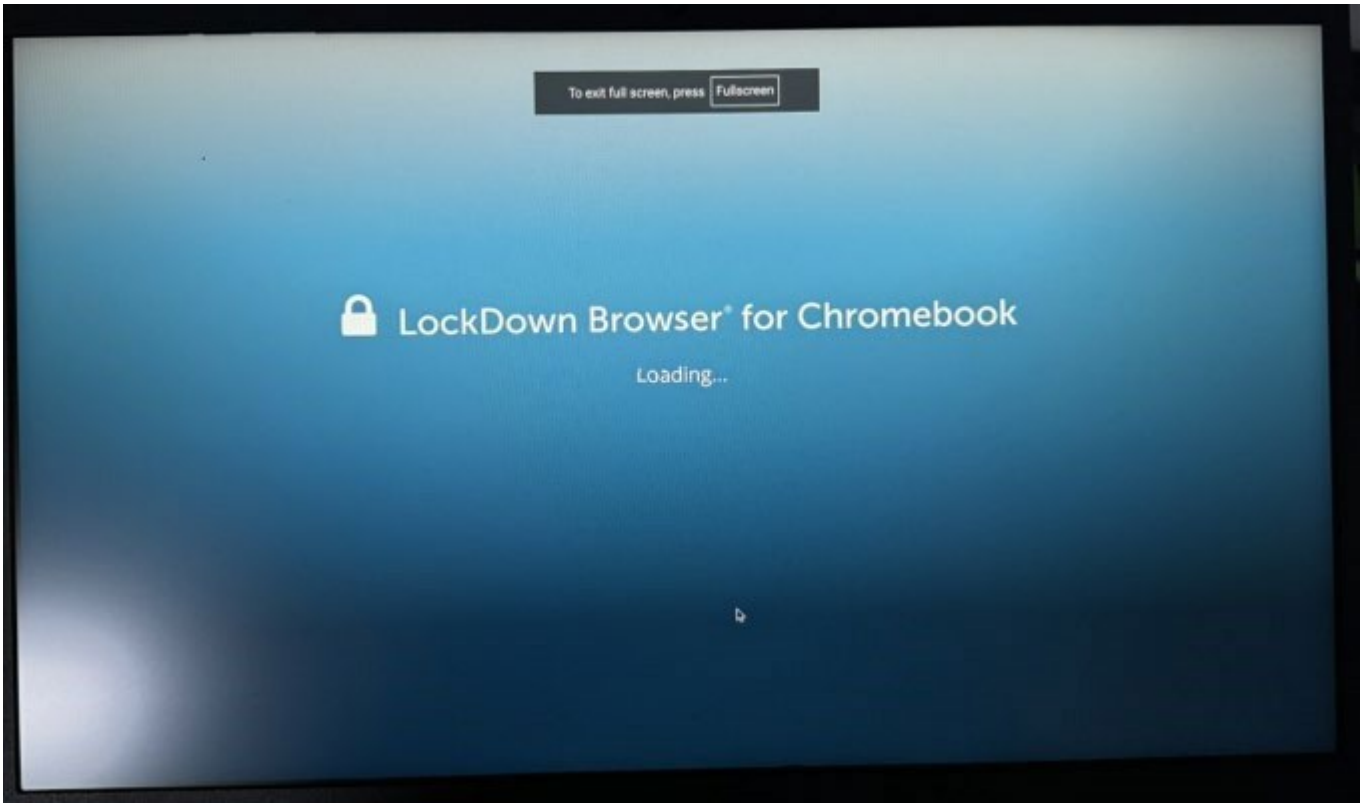
Testing the Lockdown Browser

1. Login to the Chromebook and open a browser
    a. If testing managed Chromebooks the account must be in the same OU the extension is installed in
2. Navigate to: https://assessments.wincrsystem.com/LockedBrowser/Test
3. Click the "Open Locked Browser" link on the Locked Browser Test Page
4. If the Locked Browser extension is installed properly a page will load that says "SUCCESS! This page loaded in the locked browser successfully"

The Student Experience

Students will login to their Chromebook normally, open the Chrome browser, and navigate to mi.wincrsystem.com.

After logging in at mi.wincrsystem.com the student will navigate to the landing page for their assessment and click the appropriate button to launch the assessment. When the student opens the assessment they will see a screen indicating that the LockDown Browser is opening



And finally, a page with a button to start their assessment.
